Education

B.Tech in Computer Science (AI/ML Specialization) — 2023 to 2027

Skills

JavaScript, TypeScript, React, Node.js, Express, PostgreSQL, Prisma, Python, Git

Experience

Freelance Developer — Remote (2025 to Present)

Responsible for building web applications for small clients using React and Node.js. Worked on database design and API integration.

Projects

Nook — AI Interview Preparation Platform

Built a full-stack platform with coding practice, notes, and resume analysis features. Developed the backend using Express and Prisma, and implemented JWT-based authentication with Google OAuth. Designed a rich text editor using Tiptap with auto-save functionality. Reduced note save latency and fixed critical race condition bugs affecting 100% of rapid note-switching sessions.

Personal Portfolio Website

Created a responsive portfolio site to showcase projects and skills.
